

CITY OF HAYWARD AGENDA REPORT

AGENDA DATE AGENDA ITEM

WORK SESSION ITEM

<u>07/18/00</u> <u></u>

TO: Mayor and City Council

FROM: Director of Public Works

SUBJECT: Improvements to Hesperian Boulevard and Industrial Boulevard Intersection,

Approval of Plans and Specifications, and Call for Bids

RECOMMENDATION:

It is recommended that the City Council approve the attached resolutions that approve the plans and specifications for the improvements to the Hesperian Boulevard and Industrial Boulevard intersection and calls for bids to be received on August 8, 2000.

BACKGROUND:

This project installs an additional left-turn lane on southbound Hesperian Boulevard, which is intended to reduce rear-end collisions, and installs an additional through lane on northbound Hesperian Boulevard. In addition, a portion of Industrial Boulevard will be overlaid with asphalt concrete pavement and the intersection traffic signals will be modified. Exhibits B and C show the existing and proposed roadway geometry.

Staff applied for and was successful in receiving federal funding for this project under the Hazard Elimination Safety (HES) Program. As a federally funded project, Caltrans has concluded it qualifies for a categorical exclusion under the National Environmental Policy Act and has authorized the City to proceed with design and construction. The project is also categorically exempt under guidelines of the California Environmental Quality Act, because it is for the addition of safety devices in conjunction with existing facilities.

The federal Disadvantaged Business Enterprise (DBE) program applies because the project is funded with federal funds. Under the federal program, there is no separate category for Women Business Enterprise (WBE) and the single goal can be met with any combination of **DBEs** or **WBEs**. The established goal for this project is 9 percent, which is based on staffs evaluation of available subcontracting opportunities for this project and an analysis as to which portion of **the** subcontracting would be reasonable to set aside for DBE participation.

PROJECT COSTS:

The estimated project costs are as follows:

Construction Cost	\$228,000
Design and Administration	10,000
Inspection and Survey	18,000
TOTAL	\$ 256,000

FUNDING:

A total of \$256,000 has been included in the adopted **2000/2001** Capital Improvement Program under the Transportation System Improvement Fund. The City will be reimbursed **100** percent by the federal Hazard Elimination Safety Program.

SCHEDULE:

Receive Bids	August 8, 2000
Award Contract	September 5, 2000
Begin Work	November 11, 2000
Complete Work	March 11, 2001
